

DSM-5: Implications for Mental Health Providers

Wednesday, Mar 11, 2015

9am-4pm; registration 8:30-9am
0.6 CEU, \$150

The *Diagnostic and Statistical Manual of Mental Disorders*, Fifth Edition (DSM-5) has generated much controversy as it is the first major revision of psychiatric diagnoses in more than 30 years. At this workshop we go through the changes and controversies, discuss clinical rationales for the changes, and leave with a deeper appreciation of the nature and history of many of the mental illnesses. You will acquire knowledge about how to use the DSM-5 in practice, including some of the diagnostic criteria required for diagnosis and treatment of the major disorders. We also provide updates on other aspects of the new DSM including severity scales, disability rating scales, and cultural considerations.

Learning Objectives:

- List diagnostic changes between the DSM-IV and 5
- Summarize controversies surrounding DSM-5
- Utilize the DSM-5 in clinical practice
- Apply the new cross-cutting severity scales
- Recognize ICD and DSM distinctions

Beyond the DSM

Monday, Mar 23, 2015

9am-4pm; registration 8:30-9am
0.6 CEU, \$150

For some, DSM-5 was a disappointment. For others, it was a catastrophe. For still others, it is simply more of the same—a collection of diagnoses without evidence or support—a fraud. In *Beyond the DSM*, we look at what is not included in the book—the developmental transitions of human beings and how we change, new evidence about genetics and epigenetics, brain scanning and new treatments, happiness and positive psychology, and finally, predictions for what to expect in DSM-6 and beyond.

Learning Objectives:

- List new findings in genetics and epigenetics related to mental health care
- Summarize the evidence-based treatments for the new treatments in major mental illnesses, including brain stimulation
- Recognize the importance of “happiness” in mental health treatment

The Dangerous Patient

Monday, May 4, 2015

9am-4pm; registration 8:30-9am
0.6 CEU, \$150

Many states, including Wisconsin, are poised to spend tens of millions of dollars on mental health care in order to lower the incidence of violence in our communities, and to prevent mass shootings. The debate about the relationship between violence and mental illness is ongoing, impassioned, and generally full of erroneous assumptions. In the meantime, mental health workers often receive little training in how to do effective violence risk assessments and how to keep themselves safe in the process. This workshop is designed to correct misconceptions about violence and mental illness, and help clinicians do their job more safely and confidently.

Learning Objectives:

- Relate the most recent data about violence and mental illness
- Summarize the 20 most robust static and dynamic risk factors for violence
- Explain violence risk in specific diagnoses
- Contrast the efficacies of various treatments for violence
- Describe the Tarasoff Duty in Wisconsin

Times: Registration, 8:30 am. Workshops, 9am-4pm each day.

Fees: The \$150 per program includes instruction, materials, CEUs, refreshments, and a nonrefundable \$20 administrative fee. Lunch is on your own.

Continuing Education Units: 0.6 CEU (6 credit hours) per training.

Registration: Enrollment is limited: Register early!

Register online at: continuingstudies.wisc.edu/mental-health

For more information: Contact Kristi Obmascher at 608-262-8971 or kobmascher@dcs.wisc.edu.

Approved Hours/Continuing Education Credits: 0.6 CEU = 6 hours of professional continuing education. Participants receive verification of attendance at end of program. The Division of Continuing Studies at UW-Madison is an acceptable continuing education provider for the following:

Social Workers: Continuing Studies (provider #1042) is approved as a provider for social work continuing education by the Association of Social Work Boards (ASWB) www.aswb.org, through the Approved Continuing Education (ACE) program. Continuing Studies maintains responsibility for the program. ASWB Approval Period: 4/27/2013-4/27/2016. Social workers should contact their regulatory board to determine course approval. Social workers participating in each course will receive six continuing education clock hours. Wisconsin, Iowa, Illinois, Michigan, and Minnesota Boards of Social Work recognize ACE programs.

Counselors: Continuing Studies is a National Board for Certified Counselors (NBCC) Approved Continuing Education Provider (ACEP) #5990 and may offer NBCC approved clock hours for events that meet NBCC requirements. The ACEP solely is responsible for all aspects of the program.

WI Psychologists, and Marriage and Family Therapists: this program qualifies as an accredited university continuing education course relevant to professional practice.

WI Substance Abuse Counselors: this program qualifies as a continuing education course consisting of relevant subject matter taught by qualified presenters.

Educators: this program may qualify towards your Professional Development Plans (PDPs).

Other professions: completion of each program qualifies for six continuing education hours.

Contact your own board or organization for specific continuing education requirements.
